AFFILIATED MANAGERS GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

The consolidated financial statements of Affiliated Managers Group, Inc. ("Company" or "AMG") have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. The year-end condensed balance sheet data was derived from audited financial statements, but does not include all of the disclosures required by accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments considered necessary for a fair statement of the results have been included. All intercompany balances and transactions have been eliminated. All dollar amounts in these notes (except information that is presented on a per share, per security, per note or per contract basis) are stated in thousands, unless otherwise indicated. Certain reclassifications have been made to the prior period's financial statements to conform to the current period's presentation. Operating results for interim periods are not necessarily indicative of the results that may be expected for the full year. The Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007 includes additional information about AMG, its operations and its financial position, and should be read in conjunction with this Quarterly Report on Form 10-Q.

2. Senior Debt

On November 27, 2007, the Company entered into an amended and restated senior credit facility (the "Facility"). The Facility allows the Company to borrow up to \$945,000, comprised of a \$750,000 revolving credit facility (the "Revolver") and a \$195,000 term loan (the "Term Loan"). The Company pays interest on these obligations at specified rates (based either on the Eurodollar rate or the prime rate as in effect from time to time) that vary depending on the Company's credit rating. The Term Loan requires principal payments at specified dates until maturity. Subject to the agreement of lenders to provide additional commitments, the Company has the option to increase the Facility by up to an additional \$250,000.

The Facility will mature in February 2012, and contains financial covenants with respect to leverage and interest coverage. The Facility also contains customary affirmative and negative covenants, including limitations on indebtedness, liens, cash dividends and fundamental corporate changes. Borrowings under the Facility are collateralized by pledges of the substantial majority of capital stock or other equity interests owned by the Company. The Company had outstanding borrowings under the Facility of \$519,500 and \$575,500 at December 31, 2007 and March 31, 2008, respectively.

3. Senior Convertible Securities

The components of senior convertible securities are as follows:

	December 31, 2007	March 31, 2008
Zero coupon senior convertible notes	\$ 78,083	\$ 78,181
Floating rate senior convertible securities	300,000	—
	\$ 378,083	\$ 78,181

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Zero Coupon Senior Convertible Notes

In 2001, the Company issued \$251,000 of principal amount at maturity of zero coupon senior convertible notes due 2021 ("zero coupon convertible notes"), with each note issued at 90.50% of such principal amount and accreting at a rate of 0.50% per year. As of March 31, 2008, \$83,452 principal amount at maturity remains outstanding. Each security is convertible into 17.429 shares of the Company's common stock (at a current base conversion price of \$53.75) upon the occurrence of certain events, including the following: (i) if the closing price of a share of its common stock is more than a specified price over certain periods (initially \$62.36 and increasing incrementally at the end of each calendar quarter to \$63.08 in April 2021); (ii) if the credit rating assigned by Standard & Poor's to the securities is below BB-; or (iii) if the Company calls the securities for redemption. The holders may require the Company to repurchase the securities at their accreted value in May 2011 and 2016. If the holders exercise this option in the future, the Company may elect to repurchase the securities with cash, shares of its common stock or some combination thereof. The Company has the option to redeem the securities for cash at their accreted value. Under the terms of the indenture governing the zero coupon convertible notes, a holder may convert such security into common stock by following the conversion procedures in the indenture. Subject to changes in the price of the Company's common stock, the zero coupon convertible notes may not be convertible in certain future periods.

In 2006, the Company amended the zero coupon convertible notes. Under the terms of this amendment, the Company will pay interest through May 7, 2008 at a rate of 0.375% per year on the principal amount at maturity of the notes in addition to the accrual of the original issue discount.

Floating Rate Senior Convertible Securities

In the first quarter of 2008, the Company called its floating rate senior convertible securities due 2033 ("floating rate convertible securities") for redemption at their principal amount plus accrued and unpaid interest. In lieu of redemption, substantially all of the holders elected to convert their securities. The Company issued approximately 7.0 million shares of common stock to settle these conversions and other privately negotiated exchanges. All of the Company's floating rate convertible securities have been cancelled and retired.

In connection with these transactions, the Company incurred \$1,075 of expenses which were reported in "Investment and other (income) loss" in the accompanying Consolidated Statements of Income. During the quarter, the Company reclassified \$18,291 of accumulated deferred tax liabilities attributable to these securities to stockholders' equity.

4. Mandatory Convertible Securities

In the first quarter of 2008, the Company repurchased the outstanding senior notes component of its mandatory convertible securities ("2004 PRIDES"). The repurchase proceeds were used by the original holders to fulfill their obligations under the related forward equity purchase contracts. Pursuant to the settlement of the forward equity purchase contracts and other privately negotiated exchanges, the Company issued approximately 3.8 million shares of common stock. All of the 2004 PRIDES have been cancelled and retired.

In connection with these transactions, the Company incurred \$825 of expenses which were reported in "Investment and other (income) loss" in the accompanying Consolidated Statements of Income. During the quarter, the Company reclassified \$4,461 of accumulated deferred tax liabilities attributable to these securities to current liabilities through the income tax provision.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

5. Junior Convertible Trust Preferred Securities

In 2006, the Company issued \$300,000 of junior subordinated convertible debentures due 2036 to a wholly-owned trust simultaneous with the issuance, by the trust, of \$291,000 of convertible trust preferred securities to investors. The junior subordinated convertible debentures and convertible trust preferred securities (together, the "2006 junior convertible trust preferred securities") have substantially the same terms.

The 2006 junior convertible trust preferred securities bear interest at a rate of 5.1% per annum, payable quarterly in cash. Each \$50 security is convertible, at any time, into 0.333 shares of the Company's common stock, which represents a conversion price of \$150 per share (or a 48% premium to the then prevailing share price of \$101.45). Upon conversion, investors will receive cash or shares of the Company's common stock (or a combination of cash and common stock) at the election of the Company. The 2006 junior convertible trust preferred securities may not be redeemed by the Company prior to April 15, 2011. On or after April 15, 2011, they may be redeemed if the closing price of the Company's common stock exceeds \$195 per share for a specified period of time. The trust's only assets are the junior convertible subordinated debentures. To the extent that the trust has available funds, the Company is obligated to ensure that holders of the 2006 convertible trust preferred securities receive all payments due from the trust.

In October 2007, the Company issued an additional \$500,000 of junior subordinated convertible debentures which are due 2037 to a wholly-owned trust simultaneous with the issuance, by the trust, of \$500,000 of convertible trust preferred securities to investors. The junior subordinated convertible debentures and convertible trust preferred securities (together, the "2007 junior convertible trust preferred securities") have substantially the same terms as the 2006 junior subordinated convertible debentures.

The 2007 junior convertible trust preferred securities bear interest at 5.15% per annum, payable quarterly in cash. Each \$50 security is convertible, at any time, into 0.25 shares of the Company's common stock, which represents a conversion price of \$200 per share (or a 53% premium to the then prevailing share price of \$130.77). Upon conversion, investors will receive cash or shares of the Company's common stock (or a combination of cash and common stock) at the election of the Company. The 2007 junior convertible trust preferred securities may not be redeemed by the Company prior to October 15, 2012. On or after October 15, 2012, they may be redeemed if the closing price of the Company's common stock exceeds \$260 per share for a specified period of time. The trust's only assets are the 2007 junior convertible subordinated debentures. To the extent that the trust has available funds, the Company is obligated to ensure that holders of the convertible trust preferred securities receive all payments due from the trust.

6. Income Taxes

As of March 31, 2008, the Company's liability for uncertain tax positions was \$22,813, including interest and related charges of \$4,123. The Company does not anticipate that the total unrecognized

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

tax benefits will change significantly over the next twelve months. A summary of the provision for income taxes is as follows:

	For the Three Months Ended March 31,	
	2007	2008
Current:		
Federal	\$ 9,060	\$ 7,679
State	1,567	1,201
Foreign	2,385	4,486
Total Current	13,012	13,366
Deferred:		
Federal	8,754	6,427
State	500	367
Foreign	(758)	(910)
Total Deferred	8,496	5,884
Provision for Income Taxes	\$ 21,508	\$ 19,250

The components of deferred tax assets and liabilities are as follows:

	December 31, 2007	March 31, 2008
Deferred assets (liabilities):		
Intangible asset amortization	\$ (193,275)	\$ (202,995)
Convertible securities interest	(28,215)	(8,041)
Non-deductible intangible amortization	(26,668)	(24,912)
State net operating loss carryforwards	18,023	19,446
Deferred compensation	(8,005)	(8,026)
Fixed asset depreciation	(3,562)	(3,586)
Accrued expenses	2,196	2,257
Capital loss carryforwards	—	2,009
Deferred income	507	2,401
	(238,999)	(221,447)
Valuation allowance	(18,023)	(21,455)
Net deferred income taxes	\$ (257,022)	\$ (242,902)

Deferred tax liabilities are primarily the result of tax deductions for the Company's intangible assets and convertible securities. The Company amortizes most of its intangible assets for tax purposes only, reducing its tax basis below its carrying value for financial statement purposes and generating deferred taxes each reporting period. In contrast, the intangible assets associated with the Company's Canadian Affiliates are not deductible for tax purposes, but certain of these assets are amortized for book purposes. As such, at the time of its investment, the Company recorded a deferred tax liability that represents the tax effect of the future book amortization of these assets. The Company's junior convertible trust preferred securities also generate tax deductions that are higher than the interest expense recorded for financial statement purposes.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As more fully discussed in Notes 3 and 4 above, the Company retired its floating rate convertible securities and 2004 PRIDES in the first quarter of 2008. The retirement of these securities reduced the Company's deferred tax liabilities related to convertible securities interest. Deferred tax liabilities of \$18,291 associated with the floating rate convertible securities were reclassified to stockholders' equity and deferred tax liabilities of \$4,461 associated with the 2004 PRIDES were reversed through the income tax provision.

At March 31, 2008, the Company had state net operating loss carryforwards that expire over a 15-year period beginning in 2008. The valuation allowances at December 31, 2007 and March 31, 2008 are principally related to the uncertainty of the realization of the loss carryforwards, which realization depends upon the Company's generation of sufficient taxable income prior to their expiration. The change in the valuation allowance for the quarter ended March 31, 2008 is principally attributable to state net operating losses during this period and a provision for loss carryforwards that the Company does not expect to realize.

7. Earnings Per Share

The calculation of basic earnings per share is based on the weighted average number of shares of the Company's common stock outstanding during the period. Diluted earnings per share are similar to basic earnings per share, but adjusts for the effect of the potential issuance of incremental shares of the Company's common stock. The following is a reconciliation of the numerator and denominator used in the calculation of basic and diluted earnings per share available to common stockholders. Unlike all other dollar amounts in these Notes, the amounts in the numerator reconciliation are not presented in thousands.

	For the Three Months Ended March 31,	
	2007	2008
Numerator:		
Net Income	\$ 36,622,000	\$ 32,778,000
Interest expense on convertible securities, net of taxes	5,073,000	7,826,000
Net Income, as adjusted	\$ 41,695,000	\$ 40,604,000
Denominator:		
Average shares outstanding—basic	29,698,622	34,470,123
Effect of dilutive instruments:		
Stock options	2,314,707	1,717,269
Senior convertible securities	9,353,666	4,250,667
Mandatory convertible securities	1,233,913	383,590
Junior convertible trust preferred securities	2,000,000	4,500,000
Average shares outstanding—diluted	44,600,908	45,321,649

The calculation of diluted earnings per share for the three months ended March 31, 2007 and 2008 excludes the potential exercise of options to purchase approximately 1.0 and 2.4 million common shares, respectively, because their effect would be anti-dilutive.

As more fully discussed in Notes 3 and 5, the Company had certain convertible securities outstanding during the three months ended March 31, 2007 and 2008. The aggregate number of shares of common stock that could be issued in the future to settle these securities is deemed outstanding for

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

the purposes of the calculation of diluted earnings per share. This approach, referred to as the if-converted method, requires that such shares be deemed outstanding regardless of whether the securities are then contractually convertible into the Company's common stock. For this if-converted calculation, the interest expense (net of tax) attributable to these securities is added back to Net Income, reflecting the assumption that the securities have been converted.

For the three months ended March 31, 2007 and 2008, the Company repurchased approximately 0.9 and 0.1 million shares of common stock, respectively, under the stock repurchase programs approved by the Company's Board of Directors.

8. Commitments and Contingencies

The Company and its Affiliates are subject to claims, legal proceedings and other contingencies in the ordinary course of their business activities. Each of these matters is subject to various uncertainties, and it is possible that some of these matters may be resolved in a manner unfavorable to the Company or its Affiliates. The Company and its Affiliates establish accruals for matters for which the outcome is probable and can be reasonably estimated. Management believes that any liability in excess of these accruals upon the ultimate resolution of these matters will not have a material adverse effect on the consolidated financial condition or results of operations of the Company.

Certain Affiliates operate under regulatory authorities which require that they maintain minimum financial or capital requirements. Management is not aware of any violations of such financial requirements occurring during the period.

Many of the Company's operating agreements provide Affiliate managers a conditional right to require the Company to purchase their retained equity interests at certain intervals. Certain agreements also provide the Company a conditional right to require Affiliate managers to sell their retained equity interests to the Company at certain intervals and upon their death, permanent incapacity or termination of employment and provide Affiliate managers a conditional right to require the Company to purchase such retained equity interests upon the occurrence of specified events. The purchase price of these conditional purchases are generally calculated based upon a multiple of the Affiliate's cash flow distributions, which is intended to represent fair value. As one measure of the potential magnitude of such purchases, in the event that a triggering event and resulting purchase occurred with respect to all such retained equity interests as of March 31, 2008, the aggregate amount of these payments would have totaled approximately \$1,426,800. In the event that all such transactions were closed, the Company would own the prospective cash flow distributions of all equity interests that would be purchased from the Affiliate managers. As of March 31, 2008, this amount would represent approximately \$188,100 on an annualized basis.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

9. Affiliate Investments in Partnerships

Purchases and sales of investments (principally equity securities) and gross client subscriptions and redemptions relating to Affiliate investments in partnerships were as follows:

	For the Three Months Ended March 31,	
	2007	2008
Purchase of investments	\$ 46,531	\$ 110,287
Sale of investments	48,705	103,703
Gross subscriptions	2,826	4,024
Gross redemptions	4,999	372

Management fees earned by the Company on partnership assets were \$283 and \$341 for the three months ended March 31, 2007 and 2008, respectively.

As of December 31, 2007 and March 31, 2008, the Company's investments in partnerships that are not controlled by its Affiliates were \$19,799 and \$23,151, respectively. These assets are reported within "Other assets" in the consolidated balance sheet. The income or loss related to these investments is classified within "Investment and other income" in the consolidated statement of income.

10. Affiliate Investments in Marketable Securities

The cost of Affiliate investments in marketable securities, gross unrealized gains and losses were as follows:

	December 31, 2007	March 31, 2008
Cost of Affiliate investments in marketable securities	\$ 20,272	\$ 26,247
Gross unrealized gains	1,866	539
Gross unrealized losses	(901)	(1,548)

11. Fair Value Measurements

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("FAS 157"), for all financial instruments and non-financial instruments that are measured at fair value on a quarterly basis. For all other nonfinancial assets and liabilities, FAS 157 is effective on January 1, 2009. FAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and requires expanded disclosure about fair value measurements. Fair value is determined based on the price that would be received for an asset or paid to transfer a liability in the most advantageous market, utilizing a hierarchy of three different valuation techniques:

Level 1—Quoted market prices for identical instruments in active markets;

Level 2—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs, or significant value drivers, are observable; and

Level 3—Prices reflecting the Company's own assumptions concerning unobservable inputs to the valuation model.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The following table summarizes the Company's financial assets and liabilities that are measured at fair value on a quarterly basis:

Financial Assets (Liabilities)	March 31, 2008	Fair Value Measurements		
		Level 1	Level 2	Level 3
Affiliate investments in partnerships	\$ 129,545	\$ 124,288	\$ 431	\$ 4,826
Affiliate investments in marketable securities	25,238	24,117	1,121	—
Derivatives	(4,834)	—	(4,834)	—

Substantially all of the Company's Level 3 instruments consist of Affiliate investments in partnerships. Changes in the fair value of these investments are presented as "Investment (income) loss from Affiliate investments in partnerships" in the consolidated statements of income. However, the portion of this income or loss that is attributable to investors that are unrelated to the Company is reported as "Minority interest in Affiliate investments in partnerships." The following table presents the changes in Level 3 assets or liabilities for the three months ended March 31, 2008:

Balance, January 1, 2008	\$ 4,731
Realized and unrealized gains (losses) included in net income	—
Realized and unrealized gains (losses) included in other comprehensive income	—
Purchases, issuances and settlements	95
Transfers in and/or out of Level 3	—
Balance, March 31, 2008	\$ 4,826
Amount of total gains (losses) included in net income attributable to unrealized gains (losses) from assets still held at March 31, 2008	\$ —

12. Related Party Transactions

The Company periodically records amounts receivable and payable to Affiliate partners in connection with the transfer of Affiliate equity interests. As of December 31, 2007 and March 31, 2008, the total receivable (reported in "Other assets") was \$35,510 and \$42,192, respectively. The total payable as of December 31, 2007 was \$70,915, of which \$69,952 is included in current liabilities. The total payable as of March 31, 2008 was \$58,966, of which \$56,430 is included in current liabilities.

In certain cases, Affiliate management owners and Company officers may serve as trustees or directors of certain mutual funds from which the Affiliate earns advisory fee revenue.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

13. Stock Option and Incentive Plans

The following table summarizes the transactions of the Company's stock option and incentive plans for the three months ended March 31, 2008:

	Stock Options	Weighted Average Exercise Price	Weighted Avg. Remaining Contractual Life (years)
Unexercised options outstanding—January 1, 2008	7,180,786	\$ 66.59	5.0
Options granted	—	—	
Options exercised	(197,207)	39.20	
Options forfeited	—	—	
Unexercised options outstanding—March 31, 2008	6,983,579	67.36	4.8
Exercisable at March 31, 2008	4,796,502	47.52	4.1
Exercisable and free from restrictions on transfer at March 31, 2008	4,258,900	45.74	3.7

The Company's Net Income for the three months ended March 31, 2008 includes \$3,783 of compensation expense, and \$1,400 of income tax benefits, related to the Company's equity-based compensation arrangements. As of March 31, 2008, there was \$51,582 of deferred compensation expense related to stock options, which is expected to be recognized over a weighted average period of approximately four years (assuming no forfeitures).

14. Derivatives

In 2006, the Company entered into a series of contracts that provided the option, but not the obligation, to repurchase 0.9 million shares of its common stock. Upon exercise, the Company could elect to receive the intrinsic value of a contract in cash or common stock. During 2007, the Company exercised its options, which had an intrinsic value of \$21,100. The Company elected to receive approximately 0.1 million shares of common stock and used the remaining proceeds, \$6,800, to enter into a series of contracts to repurchase up to 0.8 million shares. These options expired during the first quarter of 2008.

During the first quarter of 2008, the Company entered into a series of treasury rate lock contracts with a notional value of \$250,000. Each of these contracts is designated and qualifies as a cash flow hedge under Statement of Financial Accounting Standard No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("FAS 133"). The Company has documented its hedging strategies and risk management objectives for these contracts. The Company assesses and documents, both at inception and on an ongoing basis, whether these hedging contracts are highly effective in offsetting changes in cash flows associated with the hedged items. These contracts are reported, at fair value, in other current assets or accrued liabilities, with changes in fair value reported in accumulated other comprehensive income. At March 31, 2008, the Company recorded the fair value of these contracts as a \$4,834 accrued liability. As of May 2, 2008 the fair value of these contracts was a \$2,610 current asset.

15. Segment Information

Financial Accounting Standard No. 131, "Disclosures about Segments of an Enterprise and Related Information" ("FAS 131"), establishes disclosure requirements relating to operating segments

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

in annual and interim financial statements. Management has assessed the requirements of FAS 131 and determined that the Company operates in three business segments representing the Company's three principal distribution channels: Mutual Fund, Institutional and High Net Worth, each of which has different client relationships.

Revenue in the Mutual Fund distribution channel is earned from advisory and sub-advisory relationships with all domestically-registered investment products as well as non-institutional investment products that are registered abroad. Revenue in the Institutional distribution channel is earned from relationships with foundations and endowments, defined benefit and defined contribution plans and Taft-Hartley plans. Revenue in the High Net Worth distribution channel is earned from relationships with wealthy individuals, family trusts and managed account programs.

Revenue earned from client relationships managed by Affiliates accounted for under the equity method is not consolidated with the Company's reported revenue but instead is included (net of operating expenses, including amortization) in "Income from equity method investments," and reported in the distribution channel in which the Affiliate operates. Income tax attributable to the profits of the Company's equity-method Affiliates is reported within the Company's consolidated income tax provision.

In firms with revenue sharing arrangements, a certain percentage of revenue is allocated for use by management of an Affiliate in paying operating expenses of that Affiliate, including salaries and bonuses, and is called an "Operating Allocation." In reporting segment operating expenses, Affiliate expenses are allocated to a particular segment on a pro rata basis with respect to the revenue generated by that Affiliate in such segment. Generally, as revenue increases, additional compensation is typically paid to Affiliate management partners from the Operating Allocation. As a result, the contractual expense allocation pursuant to a revenue sharing arrangement may result in the characterization of any growth in profit margin beyond the Company's Owners' Allocation as an operating expense. All other operating expenses (excluding intangible amortization) and interest expense have been allocated to segments based on the proportion of cash flow distributions reported by Affiliates in each segment.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

16. Goodwill and Acquired Client Relationships

During the three months ended March 31, 2008, the Company acquired interests from, made additional purchase payments and transferred interests to Affiliate management partners. Most of the goodwill acquired during the three months ended March 31, 2008 is deductible for tax purposes.

The following table presents the change in goodwill during the three months ended March 31, 2008:

	Mutual Funds	Institutional	High Net Worth	Total
Balance, as of December 31, 2007	\$ 474,335	\$ 529,195	\$ 226,857	\$ 1,230,387
Goodwill acquired, net	5,580	6,760	1,120	13,460
Foreign currency translation	(3,005)	(2,935)	(1,048)	(6,988)
Balance, as of March 31, 2008	\$ 476,910	\$ 533,020	\$ 226,929	\$ 1,236,859

The following table reflects the components of intangible assets of the Company's Affiliates that are consolidated as of December 31, 2007 and March 31, 2008:

	December 31, 2007		March 31, 2008	
	Carrying Amount	Accumulated Amortization	Carrying Amount	Accumulated Amortization
Amortized intangible assets:				
Acquired client relationships	\$ 401,303	\$ 168,139	\$ 401,571	\$ 176,489
Non-amortized intangible assets:				
Acquired client relationships—mutual fund management contracts	263,438	—	264,163	—
Goodwill	1,230,387		1,236,859	

For the Company's Affiliates that are consolidated, definite-lived acquired client relationships are amortized over their expected useful lives. As of March 31, 2008, these relationships were being amortized over a weighted average life of approximately 11 years. The Company estimates that its consolidated annual amortization expense will be approximately \$33,500 for the next five years, assuming no additional investments in new or existing Affiliates.

The definite-lived acquired client relationships attributable to the Company's equity method investments are amortized over their expected useful lives. As of March 31, 2008, these relationships were being amortized over approximately 13 years. Amortization expense for these relationships was \$2,307 and \$4,950 for the three months ended March 31, 2007 and 2008, respectively. The Company estimates that the annual amortization expense attributable to its current equity-method Affiliates will be approximately \$20,000 for the next five years.

In connection with certain investments in Affiliates, the Company is contingently liable, upon achievement of specified financial targets, to make additional purchase payments. During the three months ended March 31, 2008, the Company made payments of \$10,500 when certain of these targets were achieved.

17. Recent Accounting Developments

In September 2006, the FASB issued FAS 157, which defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and requires

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

expanded disclosure about fair value measurements. As described in Note 11, the Company adopted this standard in the first quarter of 2008 for its financial assets and liabilities that are measured at fair value on a quarterly basis. For all other nonfinancial assets and liabilities, FAS 157 is effective in the first quarter of 2009, and the Company is currently evaluating the impact such adoption may have on its consolidated financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities—Including an amendment of FASB Statement No. 115" ("FAS 159"). FAS 159 permits companies to measure many financial instruments and certain other items at fair value. The Company adopted FAS 159 in the first quarter of 2008; as the Company did not apply the fair value option to any of its outstanding instruments, FAS 159 did not have an impact on the Company's consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), "Business Combinations" ("FAS 141R"). FAS 141R will change the accounting for business combinations by requiring acquirors to measure identifiable assets and liabilities at their full fair values on the acquisition date. FAS 141R will also change the treatment of contingent consideration, contingencies, acquisition costs, and restructuring costs. FAS 141R will be applied prospectively to acquisitions completed after December 31, 2008. The Company will adopt FAS 141R in the first quarter of 2009 and is currently evaluating the impact that this standard may have on its financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, "Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51" ("FAS 160"). FAS 160 will change the accounting and reporting for minority or noncontrolling interests. Upon adoption, these interests, and transactions between controlling interest and minority interest holders, will be accounted for within stockholders' equity. The Company will adopt FAS 160 in the first quarter of 2009 and is currently evaluating the impact that this standard may have on its financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, "Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133" ("FAS 161"). FAS 161 requires enhanced disclosures regarding the impact of derivatives on the Company's financial position, financial performance, and cash flows. The Company will adopt FAS 161 in the first quarter of 2009 and is currently evaluating the impact that this standard may have on the consolidated financial statements.

In March 2008, the FASB affirmed the consensus of FASB Staff Position APB 14-a, "Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)" ("FSP APB 14-a"), which applies to all convertible debt instruments that may be settled either wholly or partially in cash upon conversion. FSP APB 14-a requires issuers to separately account for the liability and equity components of convertible debt instruments in a manner reflective of the issuer's nonconvertible debt borrowing rate. Previous guidance required these types of convertible debt instruments to be accounted for entirely as debt. FSP APB 14-a will be effective in the first quarter of 2009, and the Company is currently evaluating the impact that this guidance may have on the consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

18. Comprehensive Income

A summary of comprehensive income, net of applicable taxes, is as follows:

	For the Three Months Ended March 31,	
	2007	2008
Net Income	\$ 36,622	\$ 32,778
Foreign currency translation adjustment ⁽¹⁾	3,481	(8,711)
Change in net unrealized loss on derivative securities	(329)	(3,224)
Change in net unrealized gain on investment securities	15	27
Comprehensive income	\$ 39,789	\$ 20,870

- (1) Foreign currency translation in the three months ended March 31, 2007 and 2008 results from the impact of changes in foreign currency exchange rates at Affiliates whose functional currency is not the United States dollar.

The components of accumulated other comprehensive income, net of applicable taxes, are as follows:

	December 31, 2007	March 31, 2008
Foreign currency translation adjustments	\$ 64,556	\$ 55,845
Unrealized gain (loss) on derivative securities	180	(3,044)
Unrealized gain on investment securities	1	28
Accumulated other comprehensive income	\$ 64,737	\$ 52,829

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

When used in this Quarterly Report on Form 10-Q, in our other filings with the United States Securities and Exchange Commission, in our press releases and in oral statements made with the approval of an executive officer, the words or phrases "will likely result," "are expected to," "will continue," "is anticipated," "may," "intends," "believes," "estimate," "project" or similar expressions are intended to identify "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties, including, among others, the following:

- our performance is directly affected by changing conditions in global financial markets generally and in the equity markets particularly, and a decline or a lack of sustained growth in these markets may result in decreased advisory fees or performance fees and a corresponding decline (or lack of growth) in our operating results and in the cash flow distributable to us from our Affiliates;
- we cannot be certain that we will be successful in finding or investing in additional investment management firms on favorable terms, that we will be able to consummate announced investments in new investment management firms, or that existing and new Affiliates will have favorable operating results;
- we may need to raise capital by making long-term or short-term borrowings or by selling shares of our common stock or other securities in order to finance investments in additional investment management firms or additional investments in our existing Affiliates, and we cannot be sure that such capital will be available to us on acceptable terms, if at all; and
- those certain other factors discussed under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2007, and in any other filings we make with the Securities and Exchange Commission from time to time.

These factors (among others) could affect our financial performance and cause actual results to differ materially from historical earnings and those presently anticipated and projected. We will not undertake and we specifically disclaim any obligation to release publicly the result of any revisions which may be made to any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of events, whether or not anticipated. In that respect, we wish to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made.

Overview

We are an asset management company with equity investments in a diverse group of boutique investment management firms (our "Affiliates"). We pursue a growth strategy designed to generate shareholder value through the internal growth of our existing business, additional investments in investment management firms and strategic transactions and relationships designed to enhance our Affiliates' businesses and growth prospects.

Through our Affiliates, we manage approximately \$243.6 billion in assets as of March 31, 2008 in more than 300 investment products across a broad range of asset classes and investment styles in three principal distribution channels: Mutual Fund, Institutional and High Net Worth. We believe that our diversification across asset classes, investment styles and distribution channels helps to mitigate our exposure to the risks created by changing market environments. The following summarizes our operations in our three principal distribution channels.

- Through our Affiliates we provide advisory or sub-advisory services to more than 100 mutual funds. These funds are distributed to retail and institutional clients directly and through

intermediaries, including independent investment advisors, retirement plan sponsors, broker/dealers, major fund marketplaces and bank trust departments.

- Through our Affiliates, we offer more than 200 investment products across approximately 50 different investment styles in the Institutional distribution channel, including small, small/mid, mid and large capitalization value, growth equity and emerging markets. In addition, our Affiliates offer quantitative, alternative, credit arbitrage and fixed income products. Through this distribution channel, our Affiliates manage assets for foundations and endowments, defined benefit and defined contribution plans for corporations and municipalities, and Taft-Hartley plans, with disciplined and focused investment styles that address the specialized needs of institutional clients.
- The High Net Worth distribution channel is comprised broadly of two principal client groups. The first group consists principally of direct relationships with high net worth individuals and families and charitable foundations. For these clients, our Affiliates provide investment management or customized investment counseling and fiduciary services. The second group consists of individual managed account client relationships established through intermediaries, which are generally brokerage firms or other sponsors. Our Affiliates provide investment management services through more than 100 managed accounts.

In November 2007, we acquired a minority interest in ValueAct Capital ("ValueAct"), a San Francisco-based alternative investment firm that establishes ownership interests in undervalued companies and works with each company's management and Board of Directors to implement business strategies that enhance shareholder value. ValueAct has over 250 clients, including endowments, foundations, corporations, family offices, high net worth investors and funds of funds.

In December 2007, we acquired a minority interest in BlueMountain Capital Management ("BlueMountain"), a leading global credit alternatives manager specializing in relative value strategies in the corporate loan, bond, credit and equity derivatives markets. BlueMountain has offices in New York and London, and manages assets on behalf of predominantly institutional and high net worth clients.

We operate our business through our Affiliates in our three principal distribution channels, maintaining each Affiliate's distinct entrepreneurial culture and independence through our investment structure. In each case, our Affiliates are organized as separate firms, and their operating or shareholder agreements are tailored to provide appropriate incentives for our Affiliate management owners and to address the particular characteristics of that Affiliate while enabling us to protect our interests.

In making investments in boutique asset management firms, we seek to partner with the highest quality firms in the industry, with outstanding management teams, strong long-term performance records and a demonstrated commitment to continued growth and success. Fundamental to our investment approach is the belief that Affiliate management equity ownership (along with AMG's ownership) aligns our interests and provides Affiliate managers with a powerful incentive to continue to grow their business. Our investment structure provides a degree of liquidity and diversification to principal owners of boutique investment management firms, while at the same time expanding equity ownership opportunities among the firm's management and allowing management to continue to participate in the firm's future growth. Our partnership approach also ensures that Affiliates maintain operational autonomy in managing their business, thereby preserving their firm's entrepreneurial culture and independence.

Although the specific structure of each investment is highly tailored to meet the needs of a particular Affiliate, in all cases, AMG establishes a meaningful equity interest in the firm, with the remaining equity interests retained by the management of the Affiliate. Each Affiliate is organized as a

separate firm, and its operating or shareholder agreement is structured to provide appropriate incentives for Affiliate management owners and to address the Affiliate's particular characteristics while also enabling us to protect our interests, including through arrangements such as long-term employment agreements with key members of the firm's management team.

In most cases, we own a majority of the equity interests of a firm and structure a revenue sharing arrangement, in which a percentage of revenue is allocated for use by management of that Affiliate in paying operating expenses of the Affiliate, including salaries and bonuses. We call this the "Operating Allocation." The portion of the Affiliate's revenue that is allocated to the owners of that Affiliate (including us) is called the "Owners' Allocation." Each Affiliate allocates its Owners' Allocation to its managers and to us generally in proportion to their and our respective ownership interests in that Affiliate.

One of the purposes of our revenue sharing arrangements is to provide ongoing incentives for Affiliate managers by allowing them to participate in the growth of their firm's revenue, which may increase their compensation from both the Operating Allocation and the Owners' Allocation. These arrangements also provide incentives to control operating expenses, thereby increasing the portion of the Operating Allocation that is available for growth initiatives and compensation.

An Affiliate's Operating Allocation is structured to cover its operating expenses. However, should actual operating expenses exceed the Operating Allocation, our contractual share of cash under the Owners' Allocation generally has priority over the allocations and distributions to the Affiliate's managers. As a result, the excess expenses first reduce the portion of the Owners' Allocation allocated to the Affiliate's managers until that portion is eliminated, before reducing the portion allocated to us. Any such reduction in our portion of the Owners' Allocation is required to be paid back to us out of the portion of future Owners' Allocation allocated to the Affiliate's managers.

Our minority investments are also structured to align our interests with those of the Affiliate's management through shared equity ownership, as well as to preserve the Affiliate's entrepreneurial culture and independence by maintaining the Affiliate's operational autonomy. In cases where we hold a minority interest, the revenue sharing arrangement generally allocates a percentage of the Affiliate's revenue. The remaining revenue is used to pay operating expenses and profit distributions to the other owners.

Certain of our Affiliates operate under profit-based arrangements through which we own a majority of the equity in the firm and receive a share of profits as cash flow, rather than a percentage of revenue through a typical revenue sharing agreement. As a result, we participate fully in any increase or decrease in the revenue or expenses of such firms. In these cases, we participate in a budgeting process and generally provide incentives to management through compensation arrangements based on the performance of the Affiliate.

We are focused on establishing and maintaining long-term partnerships with our Affiliates. Our shared equity ownership gives both AMG and our Affiliate partners meaningful incentives to manage their businesses for strong future growth. From time to time, we may consider changes to the structure of our relationship with an Affiliate in order to better support the firm's growth strategy.

Through our affiliated investment management firms, we derive most of our revenue from the provision of investment management services. Investment management fees ("asset-based fees") are usually determined as a percentage fee charged on periodic values of a client's assets under management; most asset-based advisory fees are billed by our Affiliates quarterly. Certain clients are billed for all or a portion of their accounts based upon assets under management valued at the beginning of a billing period ("in advance"). Other clients are billed for all or a portion of their accounts based upon assets under management valued at the end of the billing period ("in arrears"). Most client accounts in the High Net Worth distribution channel are billed in advance, and most client

accounts in the Institutional distribution channel are billed in arrears. Clients in the Mutual Fund distribution channel are billed based upon average daily assets under management. Advisory fees billed in advance will not reflect subsequent changes in the market value of assets under management for that period but may reflect changes due to client withdrawals. Conversely, advisory fees billed in arrears will reflect changes in the market value of assets under management for that period.

In addition, over 50 Affiliate alternative investment and equity products, representing in excess of \$40 billion of assets under management, also bill on the basis of absolute or relative investment performance ("performance fees"). These products, which are primarily in the Institutional distribution channel, are often structured to have returns that are not directly correlated to changes in broader equity indices and, if earned, the performance fee component is typically billed less frequently than an asset-based fee. Although performance fees vary each period and depend on investment results realized in each product, and for individual clients, we anticipate these fees will be a recurring component of our revenue. We also anticipate that, within any calendar year, the majority of performance fees will typically be realized in the fourth quarter.

For certain of our Affiliates, generally where we own a minority interest, we are required to use the equity method of accounting. Consistent with this method, we have not consolidated the operating results of these firms (including their revenue) in our Consolidated Statements of Income. Our share of these firms' profits (net of intangible amortization) is reported in "Income from equity method investments," and is therefore reflected in our Net Income and EBITDA. As a consequence, increases or decreases in these firms' assets under management (which totaled \$58.9 billion as of March 31, 2008) will not affect reported revenue in the same manner as changes in assets under management at our other Affiliates. Our recent investments in ValueAct and BlueMountain are both accounted for under the equity method of accounting.

Our Net Income reflects the revenue of our consolidated Affiliates and our share of income from Affiliates which we account for under the equity method, reduced by:

- our expenses, including the operating expenses of our consolidated Affiliates; and
- the profits allocated to managers of our consolidated Affiliates (i.e., minority interest).

As discussed above, for consolidated Affiliates with revenue sharing arrangements, the operating expenses of the Affiliate as well as its managers' minority interest generally increase (or decrease) as the Affiliate's revenue increases (or decreases) because of the direct relationship established in many of our agreements between the Affiliate's revenue and its Operating Allocation and Owners' Allocation. At our consolidated profit-based Affiliates, expenses may or may not correspond to increases or decreases in the Affiliates' revenues.

Our level of profitability will depend on a variety of factors, including:

- those affecting the global financial markets generally and the equity markets particularly, which could potentially result in considerable increases or decreases in the assets under management at our Affiliates;
- the level of Affiliate revenue, which is dependent on the ability of our existing and future Affiliates to maintain or increase assets under management by maintaining their existing investment advisory relationships and fee structures, marketing their services successfully to new clients and obtaining favorable investment results;
- our receipt of Owners' Allocation from Affiliates with revenue sharing arrangements, which depends on the ability of our existing and future Affiliates to maintain certain levels of operating profit margins;

- the increases or decreases in the revenue and expenses of Affiliates that operate on a profit-based model;
- the availability and cost of the capital with which we finance our existing and new investments;
- our success in making new investments and the terms upon which such transactions are completed;
- the level of intangible assets and the associated amortization expense resulting from our investments;
- the level of our expenses, including compensation for our employees; and
- the level of taxation to which we are subject.

Results of Operations

The following table presents our Affiliates' reported assets under management by operating segment (which are also referred to as distribution channels in this Quarterly Report on Form 10-Q).

Assets under Management

Statement of Changes-Quarter to Date

(dollars in billions)	Mutual Fund	Institutional	High Net Worth	Total
December 31, 2007	\$ 62.2	\$ 180.4	\$ 32.2	\$ 274.8
Net client cash flows	(1.2)	(7.1)	(0.1)	(8.4)
Investment performance	(5.5)	(11.7)	(2.0)	(19.2)
Other ⁽¹⁾	0.1	(2.1)	(1.6)	(3.6)
March 31, 2008	\$ 55.6	\$ 159.5	\$ 28.5	\$ 243.6

- (1) Reflects our agreement to transfer our interests in certain Affiliates, and the reclassification of approximately \$0.1 billion of assets under management from the High Net Worth distribution channel to each of the Mutual Fund and Institutional distributions, respectively. The financial effect of these items is not material to our ongoing results.

The operating segment analysis presented in the following table is based on average assets under management. For the Mutual Fund distribution channel, average assets under management represent an average of the daily net assets under management. For the Institutional and High Net Worth distribution channels, average assets under management represent an average of the assets at the beginning and end of each calendar quarter during the applicable period. We believe that this analysis more closely correlates to the billing cycle of each distribution channel and, as such, provides a more meaningful relationship to revenue.

(in millions, except as noted)

	2007	2008	% Change
Average assets under management (in billions)⁽¹⁾			
Mutual Fund	\$ 59.6	\$ 57.3	(4)%
Institutional	157.1	170.0	8%
High Net Worth	28.5	30.3	6%
Total	\$ 245.2	\$ 257.6	5%
Revenue			
Mutual Fund	\$ 133.2	\$ 134.8	1%
Institutional	136.6	160.1	17%
High Net Worth	40.0	40.1	0%
Total	\$ 309.8	\$ 335.0	8%
Net Income			
Mutual Fund	\$ 17.1	\$ 13.2	(23)%
Institutional	15.2	16.3	7%
High Net Worth	4.3	3.3	(23)%
Total	\$ 36.6	\$ 32.8	(10)%
EBITDA⁽²⁾			
Mutual Fund	\$ 37.3	\$ 31.4	(16)%
Institutional	40.4	47.9	19%
High Net Worth	11.4	10.1	(11)%
Total	\$ 89.1	\$ 89.4	0%

(1) Assets under management attributable to any investments that closed during the relevant periods are included on a weighted average basis for the period from the closing date of the respective investment. These amounts include assets managed by affiliated investment management firms whose financial results are not consolidated for financial reporting purposes of \$48.0 billion and \$61.6 billion for the three months ended March 31, 2007, and 2008, respectively.

(2) EBITDA represents earnings before interest expense, income taxes, depreciation and amortization. Our use of EBITDA, including reconciliation to cash flow from operations, is described in greater detail in "Liquidity and Capital Resources—Supplemental Liquidity Measure." For purposes of our distribution channel operating results, expenses not incurred directly by Affiliates have been allocated based on the proportion of aggregate cash flow distributions reported by each Affiliate in the particular distribution channel.

Revenue

Our revenue is generally determined by the level of our assets under management, the portion of our assets across our products and three operating segments, which realize different fee rates, and the recognition of any performance fees.

Our revenue increased \$25.2 million (or 8%) in the quarter ended March 31, 2008, as compared to the quarter ended March 31, 2007, while average assets under management increased 5%. This increase in average assets under management resulted principally from our 2007 investments in ValueAct and BlueMountain, which did not affect reported revenue since these investments are accounted for under the equity method of accounting. The increase in revenue was primarily the result of a higher level of

performance fees in the quarter ended March 31, 2008 as compared to the quarter ended March 31, 2007.

The following discusses the changes in our revenue by operating segments.

Mutual Fund Distribution Channel

Our revenue in the Mutual Fund distribution channel increased \$1.6 million (or 1%) in the quarter ended March 31, 2008, as compared to the quarter ended March 31, 2007, while average assets under management decreased 4%. The increase in revenue was proportionately more than the change in average assets under management as a result of performance fees earned in the quarter ended March 31, 2008.

Institutional Distribution Channel

Our revenue in the Institutional distribution channel increased \$23.5 million (or 17%) in the quarter ended March 31, 2008, as compared to the quarter ended March 31, 2007, while average assets under management increased 8%. This increase in average assets under management resulted principally from our 2007 investments in ValueAct and BlueMountain, which did not affect reported revenue since these investments are accounted for under the equity method of accounting. The increase in revenue was primarily the result of a higher level of performance fees in the quarter ended March 31, 2008, as compared to the quarter ended March 31, 2007.

High Net Worth Distribution Channel

Our revenue in the High Net Worth distribution channel was unchanged in the quarter ended March 31, 2008, as compared to the quarter ended March 31, 2007, while average assets under management increased 6%. This increase in average assets under management resulted principally from our 2007 investments in ValueAct and BlueMountain, which did not affect reported revenue since these investments are accounted for under the equity method of accounting.

Operating Expenses

The following table summarizes our consolidated operating expenses:

(dollars in millions)	For the Three Months Ended March 31,		% Change
	2007	2008	
Compensation and related expenses	\$ 138.9	\$ 151.1	9%
Selling, general and administrative	45.5	52.0	14%
Amortization of intangible assets	7.9	8.3	5%
Depreciation and other amortization	2.4	2.8	17%
Other operating expenses	2.8	5.4	93%
Total operating expenses	\$ 197.5	\$ 219.6	11%

The substantial portion of our operating expenses is incurred by our Affiliates, the majority of which is incurred by Affiliates with revenue sharing arrangements. For Affiliates with revenue sharing arrangements, an Affiliate's Operating Allocation percentage generally determines its operating expenses. Accordingly, our compensation expense is impacted by increases or decreases in each Affiliate's revenue and the corresponding increases or decreases in each Affiliate's respective Operating Allocations. During the three months ended March 31, 2008, approximately \$70.5 million (or 47%) of our consolidated compensation expense was attributable to our Affiliate management partners. The percentage of revenue allocated to operating expenses varies from one Affiliate to another and may also vary within an Affiliate depending on the source or amount of revenue. As a result, changes in our aggregate revenue may not impact our consolidated operating expenses to the same degree.

Compensation and related expenses increased 9% in the three months ended March 31, 2008, as compared to the three months ended March 31, 2007, primarily as a result of the relationship between revenue and operating expenses at Affiliates, which experienced increases in revenue, and accordingly, reported higher compensation expenses. This increase was also attributable to a \$1.7 million increase in share-based compensation.

Selling, general and administrative expenses increased 14% in the three months ended March 31, 2008, as compared to the three months ended March 31, 2007. The increase was attributable to \$5.6 million of administrative and other expenses attributable to performance fees and \$2.0 million of professional transaction-related fees that were recognized as a result of our mutual agreement with Cooke & Bieler to not proceed with a prospective new investment. These increases were partially offset by a \$2.6 million recovery of a past receivable from an Affiliate product.

Amortization of intangible assets increased 5% in the three months ended March 31, 2008, as compared to the three months ended March 31, 2007, principally from an increase in definite-lived intangible assets resulting from our investments in existing Affiliates during 2007.

Depreciation and other amortization increased 17% in the three months ended March 31, 2008, as compared to the three months ended March 31, 2007, principally attributable to spending on depreciable assets during 2007.

Other operating expenses increased 93% in the three months ended March 31, 2008, as compared to the three months ended March 31, 2007, as a result of benefits realized upon the transfer of Affiliate interests during the quarter ended March 31, 2007 that did not recur in 2008.

Other Income Statement Data

The following table summarizes other income statement data:

(dollars in millions)	For the Three Months Ended March 31,		
	2007	2008	% Change
Income from equity method investments	\$ 8.0	\$ 14.0	75%
Investment and other income (loss)	4.6	(1.9)	(141)%
Investment income (loss) from Affiliate investments in partnerships	2.6	(14.3)	(650)%
Minority interest in Affiliate investments in partnerships	2.5	(13.4)	436%
Minority interest	48.5	53.2	10%
Interest expense	18.4	21.3	16%
Income tax expense	21.5	19.3	(10)%

Income from equity method investments consists of our share of income from Affiliates that are accounted for under the equity method of accounting, net of any related intangible amortization. Income from equity method investments increased 75% in the three months ended March 31, 2008, as compared to the three months ended March 31, 2007 principally as a result of our investments in new Affiliates during the fourth quarter of 2007.

Investment and other (income) loss primarily consists of earnings on cash and cash equivalent balances and earnings that Affiliates realize on investments in marketable securities. Investment and other income decreased 141% in the three months ended March 31, 2008, as compared to the three months ended March 31, 2007, primarily as a result of a decrease in Affiliate investment earnings. The decrease was also attributable to \$1.9 million of expenses incurred from the settlement of our 2004 mandatory convertible securities and floating rate senior convertible securities during the three months ended March 31, 2008.

Investment (income) loss from Affiliate investments in partnerships and Minority interest in Affiliate investments in partnerships relate to the consolidation of certain investment partnerships in which we are the general partner. For the three months ended March 31, 2008 and 2007, the income (loss) from Affiliate investments in partnerships was \$(14.3) million and \$2.6 million, respectively, which was principally attributable to investors who are unrelated to us.

Minority interest increased 10% in the three months ended March 31, 2008, as compared to the three months ended March 31, 2007, principally as a result of the previously discussed increase in revenue.

Interest expense increased 16% in the three months ended March 31, 2008, as compared to the three months ended March 31, 2007. This increase was attributable to our issuance of \$500 million of junior convertible trust preferred securities in October 2007, which increased interest expense \$6.4 million. This increase was partially offset by a decrease in interest expense attributable to the retirement of our floating rate convertible securities and 2004 PRIDES in February 2008, which reduced interest expense \$3.2 million.

Income taxes decreased 10% in the three months ended March 31, 2008, as compared to the three months ended March 31, 2007, as a result of the decrease in income before taxes.

Net Income

The following table summarizes Net Income:

(dollars in millions)	For the Three Months Ended March 31,		% Change
	2007	2008	
Net income	\$ 36.6	\$ 32.8	(10)%

The decrease in Net Income in the three months ended March 31, 2008, as compared to the three months ended March 31, 2007, resulted from net increases in reported operating and interest expenses and a decrease in investment and other income, partially offset by the increases in revenue and income from equity method investments, as described above.

Supplemental Performance Measure

As supplemental information, we provide a non-GAAP performance measure that we refer to as Cash Net Income. This measure is provided in addition to, but not as a substitute for, Net Income. Cash Net Income is defined as Net Income plus amortization and deferred taxes related to intangible assets plus Affiliate depreciation. We consider Cash Net Income an important measure of our financial performance, as we believe it best represents operating performance before non-cash expenses relating to our acquisition of interests in our Affiliates. Cash Net Income is used by our management and Board of Directors as a principal performance benchmark, including as a measure for aligning executive compensation with stockholder value.

Since our acquired assets do not generally depreciate or require replacement by us, and since they generate deferred tax expenses that are unlikely to reverse, we add back these non-cash expenses to Net Income to measure operating performance. We add back amortization attributable to acquired client relationships because this expense does not correspond to the changes in value of these assets, which do not diminish predictably over time. The portion of deferred taxes generally attributable to intangible assets (including goodwill) that we no longer amortize but which continues to generate tax deductions is added back, because these accruals would be used only in the event of a future sale of an Affiliate or an impairment charge, which we consider unlikely. We add back the portion of consolidated depreciation expense incurred by our Affiliates because under our Affiliates' operating agreements we

are generally not required to replenish these depreciating assets. Conversely, we do not add back the deferred taxes relating to our floating rate convertible securities or other depreciation expenses.

The following table provides a reconciliation of Net Income to Cash Net Income:

(dollars in millions)	For the Three Months Ended March 31,	
	2007	2008
Net Income	\$ 36.6	\$ 32.8
Intangible amortization	7.9	8.3
Intangible amortization-equity method investments	2.3	5.0
Intangible-related deferred taxes	7.0	9.0
Affiliate depreciation	1.6	1.5
Cash Net Income	\$ 55.4	\$ 56.6

Cash Net Income increased 2% in the three months ended March 31, 2008, as compared to the three months ended March 31, 2007, primarily as a result of increases in amortization and intangible-related deferred tax expenses, partially offset by the previously described factors affecting Net Income.

Liquidity and Capital Resources

The following table summarizes certain key financial data relating to our liquidity and capital resources:

(dollars in millions)	December 31, 2007	March 31, 2008
Balance Sheet Data		
Cash and cash equivalents	\$ 223.0	\$ 162.2
Senior debt	519.5	575.5
Zero coupon convertible notes	78.1	78.2
Floating rate convertible securities	300.0	—
Mandatory convertible securities	300.0	—
Junior convertible trust preferred securities	800.0	800.0

	For the Three Months Ended March 31,	
	2007	2008
Cash Flow Data		
Operating cash flow	\$ (47.3)	\$ (62.8)
Investing cash flow	(37.8)	(54.8)
Financing cash flow	7.2	57.0
EBITDA ⁽¹⁾	89.1	89.4

(1) The definition of EBITDA is presented in Note 2 on page 26 and below under Supplemental Liquidity Measure.

We view our ratio of debt to EBITDA (our "leverage ratio") as an important gauge of our ability to service debt, make new investments and access capital. Consistent with industry practice, we do not consider our junior convertible trust preferred securities as debt for the purpose of determining our leverage ratio. We also view our leverage on a "net debt" basis by deducting our cash and cash equivalents from our debt balance. The leverage covenant of our senior revolving credit facility is generally consistent with our treatment of our junior convertible trust preferred securities and our net debt approach. At March 31, 2008, our leverage ratio was 1.2:1.

Supplemental Liquidity Measure

As supplemental information in this Quarterly Report on Form 10-Q, we have provided information regarding our EBITDA, a non-GAAP liquidity measure. This measure is provided in addition to, but not as a substitute for, cash flow from operations. EBITDA represents earnings before interest expense, income taxes, depreciation and amortization. EBITDA, as calculated by us, may not be consistent with computations of EBITDA by other companies. As a measure of liquidity, we believe that EBITDA is useful as an indicator of our ability to service debt, make new investments and meet working capital requirements. We further believe that many investors use this information when analyzing the financial position of companies in the investment management industry.

The following table provides a reconciliation of cash flow from operations to EBITDA:

(in millions)	For the Three Months Ended March 31,	
	2007	2008
Cash flow from operations	\$ (47.3)	\$ (62.8)
Interest expense, net of non-cash items ⁽¹⁾	16.9	20.1
Current tax provision	13.0	13.4
Income from equity method investments, net of distributions ⁽²⁾	(10.2)	(14.0)
Changes in assets and liabilities and other adjustments ⁽³⁾	116.7	132.7
EBITDA⁽⁴⁾	\$ 89.1	\$ 89.4

- (1) Non-cash items represent amortization of issuance costs and interest accretion (\$1.5 million and \$1.2 million for the three months ended March 31, 2007 and 2008, respectively).
- (2) Distributions from equity method investments were \$20.5 million and \$32.9 million for the three months ended March 31, 2007 and 2008, respectively.
- (3) Other adjustments include stock option expenses, tax benefits from stock options and other adjustments to reconcile Net Income to net cash flow from operating activities.
- (4) The definition of EBITDA is presented in Note 2 on Page 26.

We meet our cash requirements through cash generated by operating and financing activities. Our principal uses of cash in the three months ended March 31, 2008 were to make distributions to Affiliate managers and repurchase shares of our common stock. We expect that our principal uses of cash for the foreseeable future will be for investments in new and existing Affiliates, distributions to Affiliate managers, payment of principal and interest on outstanding debt, the repurchase of debt securities, and the repurchase of shares of our common stock and for working capital purposes.

We have a cash management program that enables our Affiliates to invest their excess cash with us to achieve a competitive rate of return. At March 31, 2008, our Affiliates had invested approximately \$68 million with us in this program. These investments are eliminated for accounting purposes and are not reflected on our Consolidated Balance Sheet.

Senior Revolving Credit Facility

On November 27, 2007, we entered into an amended and restated senior credit facility (the "Facility"). The Facility allows us to borrow up to \$945 million, comprised of a \$750 million revolving credit facility (the "Revolver") and a \$195 million term loan (the "Term Loan"). We pay interest on

these obligations at specified rates (based either on the Eurodollar rate or the prime rate as in effect from time to time) that vary depending on our credit rating. The Term Loan requires principal payments at specified dates until maturity. Subject to the agreement of lenders to provide additional commitments, we have the option to increase the Facility by up to an additional \$250 million.

The Facility will mature in February 2012, and contains financial covenants with respect to leverage and interest coverage. The Facility also contains customary affirmative and negative covenants, including limitations on indebtedness, liens, cash dividends and fundamental corporate changes. Borrowings under the Facility are collateralized by pledges of the substantial majority of capital stock or other equity interests owned by us. We had outstanding borrowings under the Facility of \$519.5 million and \$575.5 million at December 31, 2007 and March 31, 2008, respectively.

Zero Coupon Senior Convertible Notes

In 2001, we issued \$251 million of principal amount at maturity of zero coupon senior convertible notes due 2021 ("zero coupon convertible notes"), with each note issued at 90.50% of such principal amount and accreting at a rate of 0.50% per year. As of March 31, 2008, \$83.5 million principal amount at maturity remains outstanding. Each security is convertible into 17.429 shares of our common stock (at a current base conversion price of \$53.75) upon the occurrence of certain events, including the following: (i) if the closing price of a share of our common stock is more than a specified price over certain periods (initially \$62.36 and increasing incrementally at the end of each calendar quarter to \$63.08 in April 2021); (ii) if the credit rating assigned by Standard & Poor's to the securities is below BB-; or (iii) if we call the securities for redemption. The holders may require us to repurchase the securities at their accreted value in May 2011 and 2016. If the holders exercise this option in the future, we may elect to repurchase the securities with cash, shares of our common stock or some combination thereof. We have the option to redeem the securities for cash at their accreted value. Under the terms of the indenture governing the zero coupon convertible notes, a holder may convert such security into common stock by following the conversion procedures in the indenture. Subject to changes in the price of our common stock, the zero coupon convertible notes may not be convertible in certain future periods.

In 2006, we amended the zero coupon convertible notes. Under the terms of this amendment, we will pay interest through May 7, 2008 at a rate of 0.375% per year on the principal amount at maturity of the notes in addition to the accrual of the original issue discount.

Floating Rate Senior Convertible Securities

In the first quarter of 2008, we called our floating rate senior convertible securities due 2033 ("floating rate convertible securities") for redemption at their principal amount plus accrued and unpaid interest. In lieu of redemption, substantially all of the holders elected to convert their securities. We issued approximately 7.0 million shares of common stock to settle these conversions and other privately negotiated exchanges. All of our floating rate convertible securities have been cancelled and retired.

In connection with these transactions, we incurred \$1.1 million of expenses which were reported in "Investment and other (income) loss" in the accompanying Consolidated Statements of Income. During the quarter, we reclassified \$18.3 million of accumulated deferred tax liabilities attributable to these securities to stockholders' equity.

2004 Mandatory Convertible Securities

In the first quarter of 2008, we repurchased the outstanding senior notes component of our mandatory convertible securities ("2004 PRIDES"). The repurchase proceeds were used by the original holders to fulfill their obligations under the related forward equity purchase contracts. Pursuant to the settlement of the forward equity purchase contracts and other privately negotiated exchanges, we issued approximately 3.8 million shares of common stock. All of the 2004 PRIDES have been cancelled and retired.

In connection with these transactions, we incurred \$0.8 million of expenses which were reported in "Investment and other (income) loss" in the accompanying Consolidated Statements of Income. During the quarter, we reclassified \$4.5 million of accumulated deferred tax liabilities attributable to these securities to current liabilities through the income tax provision.

Junior Convertible Trust Preferred Securities

In 2006, we issued \$300 million of junior subordinated convertible debentures due 2036 to a wholly-owned trust simultaneous with the issuance, by the trust, of \$291 million of convertible trust preferred securities to investors. The junior subordinated convertible debentures and convertible trust preferred securities (together, the "2006 junior convertible trust preferred securities") have substantially the same terms.

The 2006 junior convertible trust preferred securities bear interest at 5.1% per annum, payable quarterly in cash. Each \$50 security is convertible, at any time, into 0.333 shares of our common stock, which represents a conversion price of \$150 per share (or a 48% premium to the then prevailing share price of \$101.45). Upon conversion, investors will receive cash or shares of our common stock (or a combination of cash and common stock) at our election. The 2006 junior convertible trust preferred securities may not be redeemed by us prior to April 15, 2011. On or after April 15, 2011, they may be redeemed if the closing price of our common stock exceeds \$195 per share for a specified period of time. The trust's only assets are the junior convertible subordinated debentures. To the extent that the trust has available funds, we are obligated to ensure that holders of the 2006 junior convertible trust preferred securities receive all payments due from the trust.

In October 2007, we issued an additional \$500 million of junior subordinated convertible debentures due 2037 to a wholly-owned trust simultaneous with the issuance, by the trust, of \$500 million of convertible trust preferred securities to investors. The junior subordinated convertible debentures and convertible trust preferred securities (together, the "2007 junior convertible trust preferred securities") have substantially the same terms.

The 2007 junior convertible trust preferred securities bear interest at 5.15% per annum, payable quarterly in cash. Each \$50 security is convertible, at any time, into 0.25 shares of our common stock, which represents a conversion price of \$200 per share (or a 53% premium to the then prevailing share price of \$130.77). Upon conversion, investors will receive cash or shares of our common stock (or a combination of cash and common stock) at our election. The 2007 junior convertible trust preferred securities may not be redeemed by us prior to October 15, 2012. On or after October 15, 2012, they may be redeemed if the closing price of our common stock exceeds \$260 per share for a specified period of time. The trust's only assets are the 2007 junior convertible subordinated debentures. To the extent that the trust has available funds, we are obligated to ensure that holders of the 2007 junior convertible trust preferred securities receive all payments due from the trust.

The 2006 and 2007 junior convertible trust preferred securities are considered contingent payment debt instruments under the federal income tax regulations. We are required to deduct interest in an amount greater than our reported interest expense. In 2008, these deductions will generate deferred taxes of approximately \$8.5 million.

Derivatives

In 2006, we entered into a series of contracts that provided the option, but not the obligation, to repurchase 0.9 million shares of our common stock. Upon exercise, we could elect to receive the intrinsic value of a contract in cash or common stock. During 2007, we exercised our options, which had an intrinsic value of \$21.1 million. We elected to receive approximately 0.1 million shares of common stock and used the remaining proceeds, \$6.8 million, to enter into a series of contracts to repurchase up to 0.8 million shares. These options expired during the first quarter of 2008.

During the first quarter of 2008, we entered into a series of treasury rate lock contracts with a notional value of \$250 million. Each of these contracts is designated and qualifies as a cash flow hedge under Statement of Financial Accounting Standard No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("FAS 133"). We have documented the hedging strategies and risk management objectives for these contracts. We assess and document, both at inception and on an ongoing basis, whether these hedging contracts are highly effective in offsetting changes in cash flows associated with the hedged items. These contracts are reported, at fair value, in other current assets or accrued liabilities, with changes in fair value reported in accumulated other comprehensive income. At March 31, 2008, we recorded the fair value of these contracts as a \$4.8 million accrued liability. As of May 2, 2008 the fair value of these contracts was a \$2.6 million current asset.

Purchases of Affiliate Equity

Many of our Affiliate operating agreements provide our Affiliate managers the conditional right to require us to purchase their retained equity interests at certain intervals. These agreements also provide us a conditional right to require Affiliate managers to sell their retained equity interests to us upon their death, permanent incapacity or termination of employment and provide Affiliate managers a conditional right to require us to purchase such retained equity interests upon the occurrence of specified events. These purchases may occur in varying amounts over a period of approximately 15 years (or longer), and the actual timing and amounts of such purchases (or the actual occurrence of such purchases) generally cannot be predicted with any certainty. These purchases are generally calculated based upon a multiple of the Affiliate's cash flow distributions at the time the right is exercised, which is intended to represent fair value. As one measure of the potential magnitude of such purchases, in the event that a triggering event and resulting purchase occurred with respect to all such retained equity interests as of March 31, 2008, the aggregate amount of these payments would have totaled approximately \$1,426.8 million. In the event that all such transactions were consummated, we would own the cash flow distributions attributable to the additional equity interests purchased from our Affiliate managers. As of March 31, 2008, this amount would represent approximately \$188.1 million on an annualized basis. We may pay for these purchases in cash, shares of our common stock or other forms of consideration. Affiliate management partners are also permitted to sell their equity interests to other individuals or entities in certain cases, subject to our approval or other restrictions. These potential purchases, combined with our other cash needs, may require more cash than is available from operations, and therefore, we may need to raise capital by making borrowings under our Facility, by selling shares of our common stock or other equity or debt securities, or to otherwise refinance a portion of these purchases.

Operating Cash Flow

Cash flow from operating activities generally represents net income plus non-cash charges for amortization, deferred taxes, equity-based compensation and depreciation, as well as increases and decreases in our consolidated working capital. The decrease for the three months ended March 31, 2008, as compared to the three months ended March 31, 2007, resulted principally from increased settlements of minority interest liabilities from the fourth quarter of \$44.3 million, partially offset by an increase in distributions received from equity method investments of \$12.4 million.

Investing Cash Flow

The net cash flow used in investing activities increased \$17.0 million for the three months ended March 31, 2008, as compared to the three months ended March 31, 2007. This was primarily the result of an increase of \$17.5 million related to investments in Affiliates, partially offset by a decrease of \$1.5 million in the purchase of fixed assets.

We may make payments in connection with our future investments. We are also contingently liable, upon achievement of specified financial targets, to make additional purchase payments. During the first quarter of 2008, we made payments of \$10.5 million because certain of the specified financial targets were achieved. In addition, during the second quarter of 2008, we made payments of \$50 million related to these arrangements.

Financing Cash Flow

Net cash flows from financing activities increased \$49.8 million for the three months ended March 31, 2008, as compared to the three months ended March 31, 2007. This was primarily as a result of a decrease of \$98.5 million related to repurchases of our common stock, partially offset by a decrease of \$19.5 million in excess tax benefits from the exercise of stock options.

During the first quarter of 2008, the outstanding floating rate convertible securities were converted and approximately 7.0 million shares of common stock were issued. Additionally, we repurchased the outstanding senior notes component of our 2004 PRIDES. The repurchase proceeds were used by the original holders to fulfill their obligations under the related forward equity purchase contracts. The settlement of the forward equity purchase contracts resulted in the issuance of approximately 3.8 million shares of common stock.

Contractual Obligations

The following table summarizes our contractual obligations as of March 31, 2008:

Contractual Obligations	Total	Payments Due			
		Remainder of 2008	2009-2010	2011-2012	Thereafter
(dollars in millions)					
Senior debt	\$ 575.5	\$ 15.0	\$ 60.0	\$ 500.5	\$ —
Senior convertible securities	78.4	0.2	—	—	78.2
Junior convertible trust preferred securities ⁽¹⁾	1,989.9	30.8	82.1	82.1	1,794.9
Purchase of Affiliate equity ⁽²⁾	1,426.8	82.0	643.1	246.7	455.0
Leases	106.8	15.7	37.6	26.0	27.5
Other Liabilities ⁽³⁾	59.5	55.4	3.8	0.3	—
Total	\$ 4,236.9	\$ 199.1	\$ 826.6	\$ 855.6	\$ 2,355.6

(1) As more fully discussed on page 30, consistent with industry practice, we do not consider our junior convertible trust preferred securities as debt for the purpose of determining our leverage ratio.

(2) Purchases of Affiliate equity reflect estimates of our conditional purchases of additional equity in our Affiliates and assume that all conditions to such purchases are met and that such purchases will all be effected on the date that they are first exercisable. As described previously, these purchases may occur in varying amounts over the next 15 years (or longer), and the actual timing and amounts of such purchases (or the actual occurrence of such purchases) generally cannot be predicted with any certainty. Additionally, in many instances we have the discretion to settle these purchases with our common stock. Affiliate management partners are also permitted to sell their

equity interests to other individuals or entities in certain cases, subject to our approval or other restrictions. As one measure of the potential magnitude of such purchases, assuming that all such purchases had been effected as of March 31, 2008, the aggregate purchase amount would have totaled approximately \$1,426.8 million. Assuming the closing of such additional purchases, we would own the cash flow distributions attributable to the additional equity purchased, estimated to be approximately \$188.1 million on an annualized basis as of March 31, 2008.

- (3) Other liabilities reflect amounts payable to Affiliate managers related to our purchase of additional Affiliate equity interests (see Note 12 to the Consolidated Financial Statements). This table does not include liabilities for uncertain tax positions (\$22.8 million as of March 31, 2008) as we cannot predict when such liabilities will be paid.

Recent Accounting Developments

In September 2006, the FASB issued FAS 157, which defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and requires expanded disclosure about fair value measurements. As described in Note 11 to the Consolidated Financial Statements, we adopted this standard in the first quarter of 2008 for our financial assets and liabilities that are measured at fair value on a quarterly basis. For all other nonfinancial assets and liabilities, FAS 157 is effective in the first quarter of 2009, and we are currently evaluating the impact such adoption may have on our consolidated financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities—Including an amendment of FASB Statement No. 115" ("FAS 159"). FAS 159 permits companies to measure many financial instruments and certain other items at fair value. We adopted FAS 159 in the first quarter of 2008; as we did not apply the fair value option to any of our outstanding instruments, FAS 159 did not have an impact on our consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), "Business Combinations" ("FAS 141R"). FAS 141R will change the accounting for business combinations by requiring acquirors to measure identifiable assets and liabilities at their full fair values on the acquisition date. FAS 141R will also change the treatment of contingent consideration, contingencies, acquisition costs, and restructuring costs. FAS 141R will be applied prospectively to acquisitions completed after December 31, 2008. We will adopt FAS 141R in the first quarter of 2009 and are currently evaluating the impact that this standard may have on our financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, "Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51" ("FAS 160"). FAS 160 will change the accounting and reporting for minority or noncontrolling interests. Upon adoption, these interests, and transactions between controlling interest and minority interest holders, will be accounted for within stockholders' equity. We will adopt FAS 160 in the first quarter of 2009 and are currently evaluating the impact that this standard may have on our financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, "Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133" ("FAS 161"). FAS 161 requires enhanced disclosures regarding the impact of derivatives on our financial position, financial performance, and cash flows. We will adopt FAS 161 in the first quarter of 2009 and are currently evaluating the impact that this standard may have on our consolidated financial statements.

In March 2008, the FASB affirmed the consensus of FASB Staff Position APB 14-a, "Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)" ("FSP APB 14-a"), which applies to all convertible debt instruments that may be

settled either wholly or partially in cash upon conversion. FSP APB 14-a requires issuers to separately account for the liability and equity components of convertible debt instruments in a manner reflective of the issuer's nonconvertible debt borrowing rate. Previous guidance required these types of convertible debt instruments to be accounted for entirely as debt. FSP APB 14-a will be effective in the first quarter of 2009, and we are currently evaluating the impact that this guidance may have on our consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no significant changes to our Quantitative and Qualitative Disclosures About Market Risk in the three months ended March 31, 2008. Please refer to Item 7A in our 2007 Annual Report on Form 10-K.

Item 4. Controls and Procedures

We carried out an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures during the quarter covered by this Quarterly Report on Form 10-Q. In designing and evaluating our disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating and implementing possible controls and procedures. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of March 31, 2008, our disclosure controls and procedures are effective in providing reasonable assurance that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. We continue to review and document our disclosure controls and procedures and may, from time to time, make changes aimed at enhancing their effectiveness and ensuring that our systems evolve with our business.

There was no change in our internal control over financial reporting that occurred during the quarter covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

- (a) None.
- (b) None.
- (c) Purchases of Equity Securities by the Issuer.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under Outstanding Plans or Programs⁽¹⁾
January 1-31, 2008	100,000	\$ 105.02	100,000	1,780,106
February 1-29, 2008	—	\$ —	—	1,780,106
March 1-31, 2008	—	\$ —	—	1,780,106
Total	100,000	\$ 105.02	100,000	1,780,106

(1) As of May 2, 2008, there were 1,740,506 shares that could be purchased under our share repurchase programs.

Item 6. Exhibits

The exhibits are listed on the Exhibit Index and are included elsewhere in this Quarterly Report on Form 10-Q.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

**CERTIFICATION PURSUANT TO SECTION 302(a)
OF THE SARBANES-OXLEY ACT OF 2002**

I, Sean M. Healey, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Affiliated Managers Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
